VANDANA KUMARI

Bengaluru, Karnataka
+91-8218171976 k.vandana2468@gmail.com vandana-kumari1 Vandana-2029

Professional Summary

Computer Science graduate with hands-on experience in software development, Python/Flask, RESTful APIs, and database-driven applications. Proficient in C++, Python, SQL, JavaScript, and MySQL, with experience in API integration, authentication, debugging, and Git/GitHub. Strong foundation in Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, and Computer Networks, with a focus on developing secure, scalable, and maintainable software solutions.

Technical Skills

Programming Languages: C++, Python, Java, SQL, JavaScript, HTML5, CSS3
Front-end:React.js, React Hooks, Component Design, State Management, Responsive Web Design, Reusable Components
Back-end:Flask, RESTful APIs, API Design, API Integration, Authentication, CRUD Operations
Tools & Operating Systems: Git & GitHub, Docker, Linux, Windows
Databases:MySQL, MongoDB, Relational Database Design, Data Modeling, Query Optimization
Core CS: Data Structures & Algorithms(DSA), Database Management System (DBMS), Object-Oriented Programming (OOPs), Operating Systems (OS), Computer Networks (CN)

Projects

Ear Biometric **Feb 2024**
Tech Stack Used:Python, OpenCV, Flask

- Developed a biometric authentication system using ear image feature extraction for user identification.
- Built RESTful APIs using Flask for user registration, authentication, and image upload.
- Implemented OpenCV-based image preprocessing and feature extraction to improve biometric matching accuracy.
- Designed a distributed image storage strategy based on ear categories for efficient feature retrieval.

Automated Vehicle Parking System **Nov 2024**
Tech Stack Used:Python, OpenCV

- Implemented OpenCV-based vehicle detection to monitor occupied parking slots in real time.
- Designed a parking recommendation system to identify the nearest available parking space.
- Built an interface displaying real-time parking occupancy and availability.

SecureSteg **Jun 2025**
Tech Stack Used:Java

- Developed a secure image steganography application using Java.
- Implemented AES encryption with LSB steganography to provide two-layer protection for confidential messages.
- Designed PIN-based encryption and decryption workflow for secure message embedding and retrieval.

Education

Meerut Institute of Engineering & Technology (MIET), Meerut **Aug 2022 - June 2026**
Bachelor of Technology in Computer Science (CGPA of 7.6) *Meerut, Uttar Pradesh, India*

Army public school, Meerut **2020 - 2021**
Senior Secondary (Percentage - 83.2) *Meerut, Uttar Pradesh, India*

Certificates

AWS Certified Cloud Practitioner [Certificate-Link] 2026
Udemy – Web Developer Bootcamp with Flask & Python 2025
LinkedIn Learning - Data Structures 2025
LinkedIn Learning - Level Up: C++ 2025

Extracurricular

- Captain, College Volleyball Team - Led the team to secure 1st position in Zonals and qualify for the State-level Volleyball Tournament. [Certificates-Link]
- Won 1st position in Inter-college Zonal Basketball Championship. [Certificate-Link]
